

IT Architect-SharePoint DBA

Franklin County Children Services (FCCS) in Columbus, Ohio is seeking an IT Architect-SharePoint DBA to join our team in the Information Technology Department.

Employee works as an IT Architect-SharePoint DBA and integrated solutions team member, working with IT management and peers to determine the best solution in an effort to support the work they do for children and families. The IT Architect-SharePoint DBA functions as a SharePoint/Database applications architect, providing overall guidance and control of applications development environment. As an IT team member, they will work closely with the Project Management Office to fully understand the requirements of the project. Employee helps to support a positive work environment in an agency focused on promoting the safety, permanency and well-being of the children they serve.

The ideal candidate will have a bachelor's degree in computer science or a related field. In addition, they will have multiple years of experience in any combination of the following skill sets:

- SharePoint experience applying patches, service packs and deploying capabilities including web parts, features and web services.
- Configuring SharePoint and SQL Server backup and recovery processes.
- Providing Tier 3 technical support to site administrators when coding integrations.
- SharePoint integration with Oracle databases, Nintex workflows, SharePoint Designer, OnBase and SQL.
- Microsoft or OnBase certifications are a plus.

AND

Excellent written communication and presentation skills; strong interpersonal skills; basic project management course; proficient in Word, Excel, PowerPoint, Access and database principles.
