

Database Administration Specialist 3

Franklin County Children Services (FCCS) in Columbus, Ohio is seeking a Database Administration Specialist (SQL OnBase VMware) to join our Information Technology Department.

This position installs and maintains OnBase administration and SQL databases as well as manages VMware SQL servers. Other duties include analyzing network utilization and performance, coordinating information between end-users and IT staff to maintain full functioning of all SQL databases, documenting network design and recordkeeping of configuration and security changes.

The qualified candidate will have completed core undergraduate courses in computer science or information systems, or equivalent work experience, and have a minimum of four years work experience in any combination of the following: designing and implementing high availability solutions; performing solutions design; providing technical Tier III database support; developing project plans with project manager or recommending approach through defining talks and/or leading meetings related to design; and implementation, operation and ongoing maintenance of database systems including two years technology related work experience as a database administrator or an OnBase/VMware System administrator.

The ideal candidate will have two years of experience as a DBA for critical operational systems; IT certifications in any core technology stack, MCSE, VMware, CISCO, ITIL or ISO/IEC related certifications; and excellent communication and organizational skills.

The schedule for this position will primarily be Monday – Friday, 40 hours per week; hours may vary based on Agency need.

This position offers excellent fringe benefits, including health coverage, retirement, vacation, and student loan repayment assistance. Respect for cultural diversity and a demonstrated commitment to cultural sensitivity are expected. Send resume and salary requirements via email to fccshr@fcss.us. Position posted until filled. EEO/AA
